

AB2.4TTW 2.4m Twin Fall Arrest

This is a small, lightweight, retractable fall arrest device. The device is ideal for applications where maximum mobility is required whilst protecting a worker from the potential of falls. Being of lightweight construction the mini block is easily carried around by the user and can be located at the most appropriate anchorage. Having twin lines, the device offers the user a wide scope of movement, without having to disconnect. This device has an integral shock absorber built into the mechanism, so does not require a shock pack. The swivel eye on the top of the device features a load indicator.

Product Code:
AB2.4TTW

Conformance:
EN360:2002
ANSI/ASSE Z359.14-2012

Material:
Indicator Swivel - Carbon Steel
Mechanism - Plastic
Cover - Polyurethane
Double Action Hook - Aluminium

Length:
2.43m / 8ft

Weight:
3kg

Max Recommended User Weight:
150KG / 330lb

Lifespan:
The maximum lifespan of the product is *10 years* from the recorded first use. The type of use and the conditions will affect the lifespan of a product.
