

Ref.2151 SAWER

GENERAL TREE CLIMBING

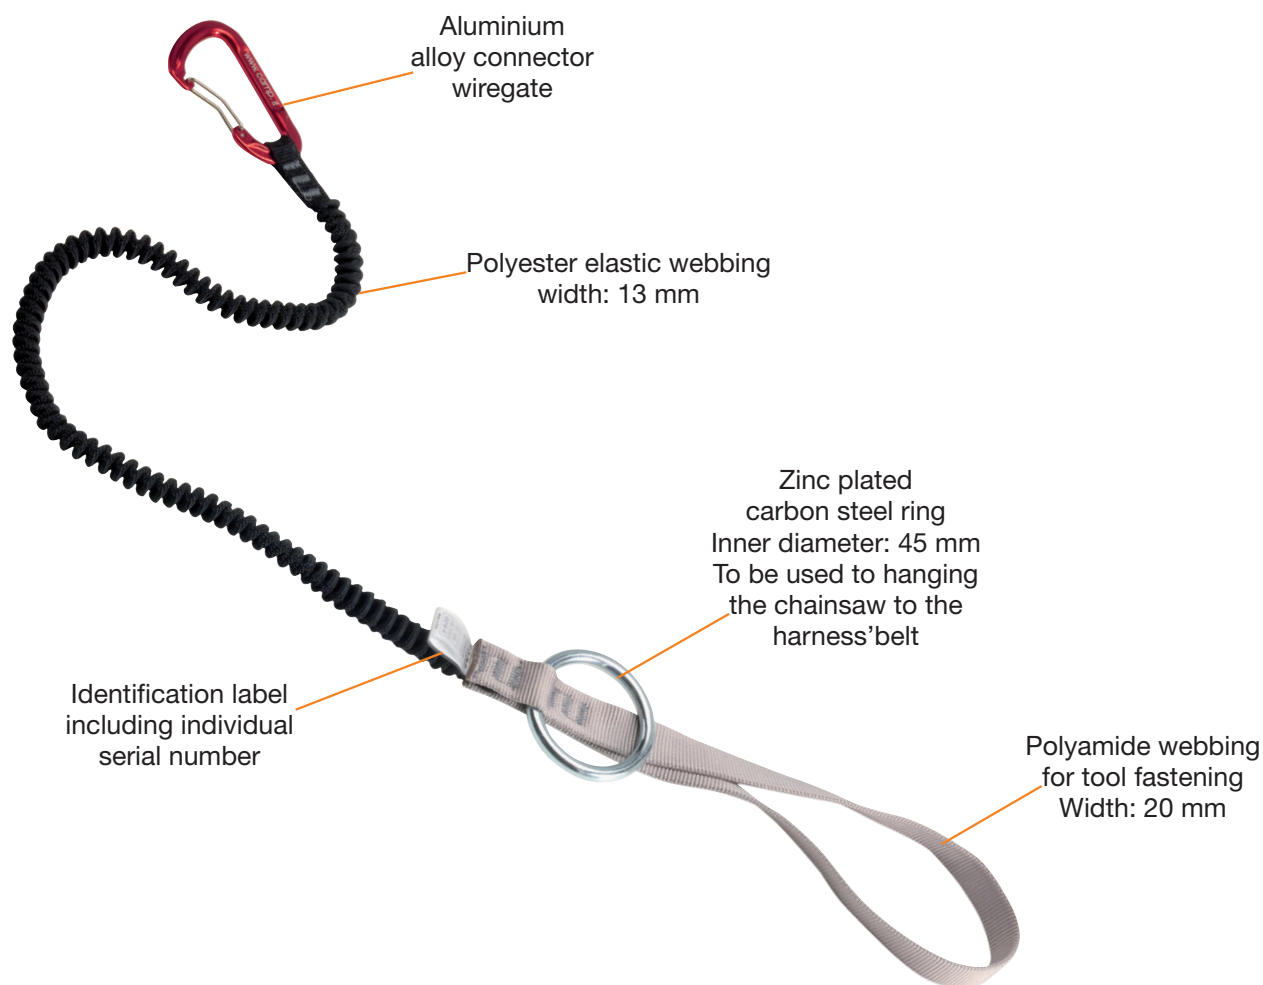

A bungee rewind lanyard designed to attach chainsaws and other tools to a harness. Features a metal ring for quick and easy attachment to a tool-holding carabiner.

Length 90-135 cm.

Maximum load: 10 kg.

Warning: the Sawyer lanyard must never be used as a safety lanyard.

“Sawer” is developed in order to break at about 200-250 Kg, so that it will safely break in case of necessity, avoiding thus any potential injury to the user.
