

Ref.2814 IRIDIUM II mm HEATCORE

11 mm semi-static rope designed for the heaviest jobs where normal ropes could be compromised by exposure to edges, heavy abrasion and other stresses.

Manufactured with Heatcore technology that strongly links the sheath and core; the process enhances mechanical features, prevents sheath slippage and, most importantly, improves safety by preventing breaking of the sheath.

32 carrier sheath made from twisted yarns.

ROPE ACCESS TEAM RESCUE TREE CLIMBING

Polyamide Core

32.7 kN **static strength**

Polyamide Sheath with 32 carrier

Very low elongation

Available in White/Red/Black colour.

Lenghts: Ref.**2814-501**: 50 m Ref.**2814-2001**: 200 m Sheath is made with **twisted yarn**, which improve abrasion, resistance and durability of the rope

Heatcore technology: links the sheath and core
