

DOUBLE RESCUE PULLEY

This lightweight, full-strength, Prusik-minding pulley is ideal for mountain rescue, swiftwater rescue, or technical teams where equipment weight is a significant consideration. By machining the side plates, the thickness of the metal can be varied to maximize the strength-to-weight ratio, a process that cannot be done with traditional bent metal side plates. Sealed ball bearings provide high efficiency, and aluminum side plates protect the rope. An extremely low-profile stainless steel axle assembly reduces snagging on rocks, roots, and uneven surfaces. Designed for lifeline up to 1/2 inch (13 mm) in diameter. Available in [Single](#) or [Double](#) versions.

Do not load a single side only of a double sheave pulley.

PRODUCT WEIGHT	8.8 OZ (249 G)
SHEAVE TREAD SIZE	1-1/2 X 1/2 IN (38 X 13 MM)
TYPE	DOUBLE
COLOR	RED
NFPA RATING	GENERAL USE
3 SIGMA MBS	50 KN (11,240 LBF)
Price	\$122
