

ESCAPE ARTISTTM

Pat. 6,378,650

The Escape Artist is fast becoming the industry standard, thanks to its hands-free edge transition and optimal descent control. When evaluating descenders side by side, many departments prefer the Escape Artist to other alternatives. Intended to be pre-rigged on an escape line and kept ready for immediate use, the Escape Artist pays out the rope or web smoothly and then locks when loaded, leaving both hands free to negotiate the exit. Squeezing the lever controls the descent rate. Intended for the most extreme conditions, the Escape Artist features all-metal construction and minimal parts to ensure durability and reliable performance. The handle is located inside the side plates to reduce the potential of catching on an edge and to increase mechanical advantage for easier control.

The Escape Artist uses a wrap and a half of the rope or web around the cam to activate the auto-locking function. This simple patented design provides foolproof activation while limiting the forces on the rope or web in the event of a fall, increasing safety. The cam has been updated with a new flange that extends a full 270° around the circumference, providing better rope guidance and optimizing the design for use with either escape cord or our Fire Escape Web.

- Variable friction allows user to control rate of descent
- Patented auto-locking design allows hands-free edge transitions
- Works equally well with or without gloves of all types
- Constructed of aluminum and stainless steel
- Compact and lightweight

PRODUCT NAME	ESCAPE ARTIST, SINGLE RED, CMC
PRODUCT WEIGHT	6.5 OZ (184 G)
ROPE SIZE	7.5 MM OR FR ESCAPE WEB
BRAKE	SINGLE
NFPA RATING	ESCAPE
Price	\$169
