

FASTLINKTM PICK-OFF STRAP

This is the only Pick-Off Strap with two carabiners incorporated directly into the strap, which reduces the overall weight. We use the same high-strength, mil-spec web and adjuster hardware as our original Pick-Off Strap. The web begins to slip through the buckle at 17-18 kN (3,800-4,000 lbf). The two ProTechTM Auto-Lock Carabiners with keeper pins are UL Classified to NFPA 1983 – Technical Use.

PRODUCT WEIGHT	1.1 LB (482 G)
EXTENDED LENGTH	50 IN (127 CM)
COLOR	BLUE
Price	\$148
