

LIFESAVER VICTIM HARNESS™

Our Lifesaver Victim Harness™ attaches quickly and securely no matter how or where the victim is positioned. Colored web makes using the harness even easier. Our original Steel Snap-Hook Buckle design allows the harness to be put on without the victim having to step into the harness. The tie-in point also doubles as a handle for controlling the victim's position. One size fits small children to large adults. The storage bag, attached to the harness so it cannot be lost, prevents tangling when accessing the victim. The harness includes a wider two-inch hook-and-loop Web Keeper™ to secure web before deployment.
