

PRINCETON TEC EOS II INTRINSICALLY SAFE HEADLAMP

Intrinsically safe. The EOS II is designed and constructed to meet the most rigorous of demands both in application and environment. The head unit is self contained, waterproof, and constructed of high grade materials. The technology inside offers the best in long burn times and utilizes advanced circuitry that regulates the output providing superior and constant brightness on it's two modes. The Maxbright LED puts out 105 Lumens and a spot beam that reaches as far as 65 meters. The EOS II is powered by 3 AAA batteries allowing for a compact footprint, and includes a rubber strap for hard hat use along with industrial 3M Dual LockTM and a nylon strap for use as a standard headlamp.
