

CREWFIT 275N XD FISH FARM

ISO 275N INFLATABLE LIFEJACKET

Designed in conjunction with leading fish farm operatives, the bespoke Crewfit 275N XD lifejacket is modified specifically for fish farm use. This ISO approved lifejacket includes all the same high specification features as the standard Crewfit 275N XD - but with the enhanced option to include attachment points to accommodate an easy access radio and quick release knife. Important additions for those operating remotely in a fish farm environment.

The Crewfit 275N XD range offers the ultimate in advanced comfort and performance technologies to date. The modular design creates a comprehensive catalogue including a choice of covers, inflation and harness options. Fusion 3D technology provides complete freedom of movement and ensures the lifejacket remains comfortable even during long periods of use, whilst the unique design with built-in twin waist adjusters allows for easy donning. The wipe clean cover helps to ensure increased longevity when used continuously in the harshest of working environments, whilst the fabric shoulder panels retain a comfortable fit.

The 275N bladder out performs approval and offers 290N worth of buoyancy. The unique buoyancy distribution provides exceptional turning solutions even when wearing heavy clothing. The bladder is highly visible on inflation and hosts an impressive array of features including a built-in chin support, location beacon attachment points and dual lifting becketts.

FEATURES

- FUSION 3D ERGONOMIC SHAPE FOR COMFORT AND FREEDOM OF MOVEMENT
