

K'biner alu captive d. action

CH11

Forged double action connector with captive eye

Features:

- Aluminium alloy
- Anodised
- Double action gate
- Gate opening: 26mm
- Overall size: L 140mm, W 72mm
- Captive eye

Aluminium alloy for reduced weight.

Anodised for corrosion protection.

Double action gate is self closing and locking and allows one handed operation.

Captive eye keeps the loading close to the spine (thus reducing any loss in strength).

Major axis - gate open 12kN

Minor axis 12kN

Major axis 33kN

Specifications:

NB: specifications and colour may change without notice.

Size: L 140mm, W 72mm

EN Test Mass:

Loading: Major axis 33kN, Minor axis 12kN, Major axis - gate open 12kN

Conformity: EN362:2004 A/T

Materials: Forged alloy

Weight (kg): 0.11

Industries: Wind
