

DURA heavy duty Aramid & fabric rope protector

MR80

Multi-layered wrap around rope protector for abrasive edges

Features:

- Heavy duty, triple layer construction
- Includes attachment cord
- Velcro closure

Outer canvas layers resist rope friction, inner aramid layer increases abrasion resistance. Condition of inner aramid layer can be viewed via the inspection eye.

Attachment cord for connection to rope or structure, second eyelet provides additional securing point if required.

NB: Not to be used for protection against sharp edges.

Options: 50cm (100cm on request)

Specifications:
