

CYCLONE locking pulley, alloy

P201

Heavy-duty hauling pulley with locking cam

Features:

- 50mm, low friction integrated pulley wheel
- Unique 'X Cam™' locking mechanism
- Lightweight alloy construction
- 100kg Working load

Specifically designed for technicians to aid hauling of equipment and materials.

X-cam has a more advanced tooth design than traditional cams and is more suitable for industrial applications as it does not pluck the rope, so reducing rate of rope wear.

- Does not jam, even against knots
- Provides high degree of grip on ropes of varying condition including after rupture of the sheath

NB: Not certified for lifting persons.

Option:

P20 - Stainless steel version available for increased corrosion resistance.

The Cyclone is available as part of the Basic lifting kit. The kit includes all the components required to lift small loads.

**Specifications:**

NB: specifications and colour may change without notice.

Size: 10.5mm - 11mm rope

EN Test Mass: n/a

Loading: 100kg SWL

Conformity: 2006/42/EC

Materials: Alloy body, stainless cam, nylon wheel

Weight (kg): 0.34

Industries: Renewables, construction, telecoms
