CARABINERS ACCORDING TO EN 12275:2013 TYPES B: Basic carabiner for general use, with screw lock or automatic lock. H: HMS carabiner, special shape for use in connection with HMS harness. K: Via ferrata carabiner for special use in via ferrata sets. T: carabiner with positioning device for ribbon slings or ropes. X: Oval carabiner, special shape, no full protection in the event of heavy fall complete tightening – is meant for long-term or permanent connections.

## 2 CLEANING

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 3 EXPLANATION OF MARKING (SLING):

Black woven label on top

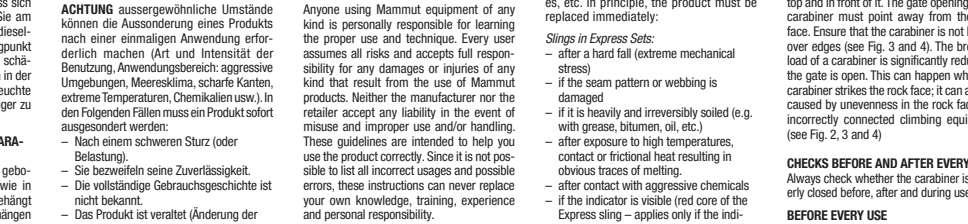

Mammut Sports Group AG  
Birren 5, CH-5703 Seon  
Switzerland

– manufactured on behalf of Mammut (incl. address)  
– "M" symbol: please observe warnings and instructions

White print label underneath (this information is different for each type of sling)

The declaration of conformity can be obtained and downloaded by clicking on the indicated link or using the QR Code:

## 4 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 5 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 6 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 7 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 8 CARE AND MAINTENANCE

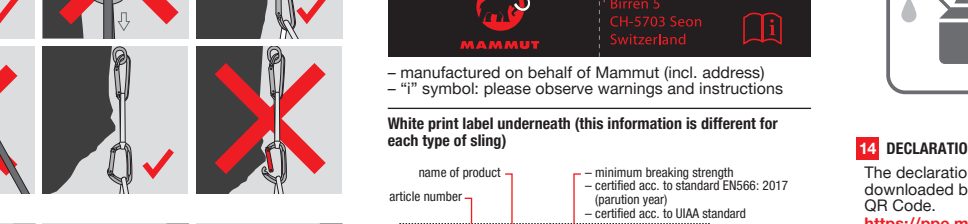

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 9 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 10 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 11 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 12 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 13 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.

## 14 CARE AND MAINTENANCE

WARNING: Clean the soiled product in lukewarm water using a neutral soap or a small amount of mild detergent. Rinse thoroughly and leave to dry away from direct sunlight (see Fig. 6 and 7).

WARNING: Do not expose the products (carabiners and sling) to any damaging influences. Avoid all contact with corrosive substances or heat sources. Aggressive chemicals, strong or extreme mechanical loads can severely reduce the product's breaking load without any visible outer signs of damage. Replace the carabiner and/or sling immediately in the event of any such contact. (See Fig. 10)

WARNING: The product is stored under optimum conditions and not used, its service life is 10 years. If the product is stored under optimum conditions and rarely used, the product (carabiners and sling) should be replaced after 7 years at the latest.
