## Data sheet

# PHONE CABLE SHORT

The PHONE CABLE SHORT offers optimal flexibility and practicality when securing smartphones or tools from crashing or falling. The sturdy, compact spiral rope coils together to about 14 cm and extends to about 60 cm. The interior steel cable is extremely sturdy and contracts back to its original shape time and time again, even after heavy use. The two carabiners at the end of the product can also be easily attached to personal protective equipment. It can support up to 2.3 kg and is perfectly designed for smartphones or small tools such as screwdrivers.

- Optimal for smartphones or small tools
- Sturdy, compact spiral work positioning rope
- Doesn't twist or wear out the cable, even when heavily used
