Data sheet

SKYGRIP HalfFinger

Light fingerless gloves for belaying or via ferrata climbing. The fingerless design allows free fine motor movement, while the somewhat longer cut over the fingers protects the knuckles from contact with the rock. Protects the hands from the frictional heat generated while belaying or rappelling, as well as from sharp protruding strands from the steel cable.

- Palm made of robust synthetic leather for optimal grip
- Easy pull-off loop on middle finger
- Loop on the wrist for attaching to harness

FEATURES

Breathable:	yes
Tear-resistant:	yes
Abrasion-resistant:	yes
Washable:	30 °C

DIMENSIONS

Size:	S
Weight:	0,07 kg

MATERIAL

Material:
31% NYLON, 24% Polyester, 24% Polyurethane
