Ultra-light - ultra-comfortable - ultra-flexible: Out of the sports and industry symbiosis

SKYLOTEC developed an ultra-light and ultra-comfortable harness for both industrial workers and leisure climbers. The RECORD provides the lightweight comfort of a sports belt (from just 1.55 lbs!) and is the lightest harness available on the market in the field of tree care. Built-in cooling fins and perforated, breathable mesh material ensure an optimal air circulation during prolonged wearing. Also the double layer padding hip straps and leg loops, and the wide size selection increase the already fantastic wearing comfort of the RECORD for everyday pleasant working.

Loops, eyelets and rings are color highlighted to ensure visibility and safety even in bad light conditions.

By clipping in different top parts, the harness can easily be extended to a full-body harness to switch application fields. The RECORD is the only harness with all approvals in the industrial area of rope access and with every admission in sport.

FEATURES

Shoulder or leg padding:	yes
Click buckles:	yes
Gear loop:	yes
Max. service life:	10 Years
Max. number of persons:	1
Attachment Points:	dorsal attachment point, sternal attachment point, pole strap attachment point, seat attachment point
Back support:	yes
Temperature:	from 45 °C to -35 °C
Area of application:	Fire brigade / Rescue / Special Forces, Rope Access / Rigging, Rope Courses
Tool loop:	yes

DIMENSIONS

Size:	XS/M
Waist size:	75-130cm
Weight:	1,61 kg
