# CORION

## GENERAL

Art. no.: G-1147-XL/5XL

EAN: 4030281273622

Standard: EN 358:1999  
EN 361:2002

E-class number: 40-02-01-02

Customs no.: 63079098

## Data sheet

### CORION

CORION is a very robust fall arrester and safety harness developed especially for working at heights in corrosion protection. Its special construction with a wide waist belt and adjustable double buckle clasp makes it easy and quick to adjust for any user. Thanks to tried-and-tested harness adjusters from the IGNITE series, the harness can be adjusted safely and easily. The new adjusters also prevent the harness from becoming loose when working.

The two fabric belay loops in the chest area and D eyelet in the shoulder area are to be used together as fall-arrest attachment points in accordance with EN 361. The lateral retaining eyelets are only to be used for workplace positioning. They are extremely rigid so they can also carry heaving loads such as buckets and tools for long periods of time.

- Extra wide waist belt for rapid adjustment
- Rigid lateral retaining eyelets for carrying buckets and tools
- Available in two sizes and tested for user weights up to 140 kg

#### FEATURES

Click buckles:	yes
Hole adjustment:	yes
Max. service life:	10 Years
Max. number of persons:	1
Attachment Points:	dorsal attachment point, sternal attachment point, pole strap attachment point
Temperature:	from 45 °C to -35 °C
Area of application:	Power Supplies / -Transmission / Telecommunications
Washable:	40 °C
Tool loop:	yes

#### DIMENSIONS

Size:	XL/5XL
Waist size:	98-128cm
Weight:	2,3 kg

## MATERIAL

Material:

Polyamide, Aluminium, Steel

---

Sternal attachment point material:

Polyamide

---

Pole strap attachment point material:

Aluminium

---

Dorsal attachment point material:

Steel
