INLINE ROLL

GENERAL

Art. no.:	H-093
EAN:	4030281283058
Standard:	EN 12278:2007

E-class number:	40-02-01-90
Customs no.:	84311000

Data sheet

INLINE ROLL

Rope pulleys are essential for routine operations involving the rescue and transportation of persons. Rope friction is reduced and the transported load is moved more easily by means of pulley blocks. SKYLOTEC rope pulleys are fitted with ball bearings and are made of aluminium. All pulleys comply with EN 12278 and UIAA 127 and are manufactured in the EEC. High quality is also reflected in their design. The mould design ensures minimal material use and lightweight design of the rope pulley.

FEATURES

Breaking load, major axis:
25,00 kN

Max. working load:	2,00 kN
Max. service life:	30 Years
Area of application:	Rope Access / Rigging

DIMENSIONS

Size:	80 x 114 x 32mm
Hole diameter:	24 mm
Weight:	0,29 kg

MATERIAL

Material:	Aluminium
