## Data sheet

### DOUBLE TRI

With the patented carabiner series DOUBLE, SKYLOTEC provides a solution for all those who work and climb left-handed or use both hands. With the innovative design (180° spring rotation), the sleeve that closes the gate can rotate easily in both directions. Conventional Twist / TriLock carabiners can be turned only to the right; therefore, they are more difficult to use left-handed.

- innovative 180° technology
- for all those who work and climb left-handed or use both hands
- meets both mountaineering and industry standards
