## SUPER STATIC 9.0

### GENERAL

Art. no.:	R-055-100
EAN:	4030281167730
Standard:	DIN EN 1891-A:1998

E-class number:	40-02-90-06
Customs no.:	56075030

## Data sheet

### **SUPER STATIC 9.0**

The static rope Super Static is designed for heavy loads when working at heights as well as for rescue and winch operations. Expansion and sheath slip are low. The abrasion resistance of the sheath, on the other hand, is so high that it is even suitable for climbing clamps. At the same time, the Super Static is also flexible enough to be used for rescue operations with long abseiling distances.

#### FEATURES

Number of standard falls:

5

---

Diameter:	9,00 mm
-----------	---------

---

Hand-washing:	40 °C
---------------	-------

---

Max. tensile force (EN 1891):	
-------------------------------	--

25,00 kN

---

Sheath percentage:	40 %
--------------------	------

---

Max. service life:	10 Years
--------------------	----------

---

Max. number of persons:	1
-------------------------	---

---

Rope type:	STAT
------------	------

---

Static elongation:	4,70 %
--------------------	--------

---

Temperature:	from 55 °C to -35 °C
--------------	----------------------

---

## DIMENSIONS

Size: 100m

---

Weight: 6,08 kg

---

## MATERIAL

Material: Polyamide

---
