SUPER STATIC 11.0

GENERAL

Art. no.:	R-080-WE-60
EAN:	4030281008507
Standard:	DIN EN 1891-A:1998

E-class number:	40-02-90-06
Customs no.:	56075030

Data sheet

SUPER STATIC 11.0

The semi-static rope SUPER STATIC 11.0 is designed for high loads in working at height as well as for rescue operations. Elongation and jacket slip are reduced to a minimum thanks to innovative technology. The sheath abrasion resistance, on the other hand, is high, making the rope ideal for rope access applications. At the same time the SUPER STATIC 11.0 is supple enough to be used in rescue operations for long abseiling distances. The SUPER STATIC 11.0 is compatible with all ActSafe cable winches.

- Semi-static rope for high load
- High sheath abrasion resistance for rope access technology
- Compatible with ActSafe winches

FEATURES

Diameter:	11,00 mm
-----------	----------

Max. service life:	10 Years
--------------------	----------

Max. number of persons:	1
-------------------------	---

DIMENSIONS

Size:	60m
-------	-----

Weight:	4,57 kg
---------	---------

MATERIAL

Material:	Polyamide
